Technical Datasheet

Analysis Name: Calculation of Carbohydrate, Calorie and Energy Content Package with Total Nitrogen and Protein by Combustion

Method Number: BS_CARB_CALC_LECO

Scope of Application: Please refer to the scope of each method (see below).

Description: A test package including all methods listed below.

**Sample Weight
Required:** 125 grams

Special Information: Refer to the specific method Technical Data Sheets for information pertaining to individual analyses (Limit of Quantification, Reproducibility, etc.).

Analyte Reported	Method	Unit of Measure
Ash	LI-00.565	%
Moisture	NQA-50.011	g/100g (%)
Fatty Acid Profile	NQA-00.1610	%
Total Nitrogen & Protein by Combustion	LI-00.557	%
Carbohydrates by Difference	LI-00.008	%
Total Calories	LI-00.008	Cal/100g
Energy	LI-00.008	kJ/100
